

I pay for XM, I spend most of my day in the car and besides all of the music I get to enjoy, I need to hear constant updated traffic reports. I can't depend on AM/FM stations that I have to search to hear the traffic, only one AM station reports the traffic at certain times, but if you're about to make a decision to enter a highway, you need the traffic report NOW not in 10 min, or it will be too late and you'll be late for a meeting, flight or train. This is just the AM/FM stations, last ditch effort to bring their audience back. A good friend of mine who has been a big morning DJ personality, in the Philadelphia area for 30 years, is retiring, because of the way the formats are, it's all commercials and nonsense and not enough music. The guy is a great friend, but since XM I hardly listen to him, I want to hear music, not commercials. Please don't take the traffic stations away. Thank you, Joe Marine
